**Subject: Withdrawal and Re-submittal Request for the Fiscal Year 2017, Annual Site Treatment Plan, Federal Facility Compliance Order, Revision 28, Los Alamos National Laboratory**

Dear Ms. Briley:

The purpose of this letter is to withdraw and resubmit the Annual Site Treatment Plan (STP) for Fiscal Year 2017 (FY17), to the New Mexico Environment Department Hazardous Waste Bureau (NMED-HWB) for the U.S. Department of Energy (DOE) National Nuclear Security Administration Los Alamos Field Office (NA-LA) and Los Alamos National Security, LLC (LANS).

The document was originally submitted to the NMED-HWB on May 31, 2018 as the *Submittal of Site Treatment Plan (STP), Fiscal Year 2017 Update and Proposed Revision 28.0, Federal Facility Compliance Order, October 4, 1995, Los Alamos National Laboratory*, referenced as EPC-DO: 18-211 and LA-UR-18-24514. The NA-LA and LANS hereby requests withdrawal and resubmittal of the Annual STP for FY17, with a proposed submittal date of October 31, 2018.

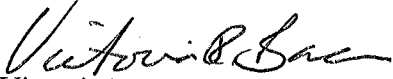

The Annual STP for FY17 was submitted in accordance with the requirements of the Federal Facility Compliance Order (FFCO), however, resubmittal of the STP is necessary to reconcile STP data from previous submittals. The data verification process for previous years (i.e., FY14, FY15 and FY16) could not be replicated at the time of submission due to a change in personnel and process deficiencies as discussed during the meeting dated July 10, 2018. The NA-LA and LANS are currently taking steps to formalize the STP reporting function in WCATS. These steps will streamline the reporting process, and ensure the data is representative, accurate, and verifiable for future reporting of the annual update.
